VIRTUAL INTELLIGENCE SERVICE

VICTORIA PER INTELLECTUM

Generic Air Force structure

INTREP VIS-B-002

NOTE: This document and structure is a simplification and a compromise between real world organization and DCS limitation, while respecting that this is a hobby and not anyones job.

Introduction

This report is part of the basic intelligence for 132nd hosted events.

The aim of this report is help pilots understand the organization and structure of enemy air forces.

The structure in this document is generic and the actual structure in a operation is given as intelligence for that operation.

Aircraft roles

Aircraft	Primary role	Secondary role	Name	Year	
MiG-21	Interceptor		FISHBED	1959	
MiG-23	Fighter		FLOGGER	1970	
MiG-25 PD	Interceptor		FOXBAT A	1970	
MiG-25 RBT	Reconnaissance	Bomber	FOXBAT B	1970	
MiG-27K	Ground attack		FLOGGER D/J	1975	
MiG-29A	Fighter	Ground attack	FULCRUM	1982	
MiG-29S	Fighter	Ground attack	FULCRUM-S	1982	
MiG-31	Interceptor		FOXHOUND	1981	Replace Mig-25
SU-17 M4	Fighter bomber		FITTER-K	1980	
SU-24 M	Attack (A-G)		FENCER-D	1979	
SU-24 MR	Reconnaissance		FENCER-E	1980	
SU-25	CAS	SEAD	FROGFOOT	1981	
SU-25 T	Anti-tank		FROGFOOT	1991	
SU-25 TM	Attack		FROGFOOT	2008	
SU-27	Fighter	Fighter escort	FLANKER	1985	
SU-30	Fighter/attack	Deep interdiction	FLANKER-C	1996	Similar to F15E
SU-33	Fighter		FLANKER-D	1998	Carrier
SU-34	Fighter-bomber	Strike, EW/SEAD	FULLBACK	2006	
TU-142	ASW	Anti-ship(ASUW)	BEAR	1972	
TU-160	Strategic bomber		BLACKJACK	1987	
TU-22 M3	Strategic bomber	Anti-ship(ASUW)	BACKFIRE-C	1972	
TU-95 MS	Cruise Missiles		BEAR-H	1981	
A-50	AWACS		MAINSTAY	1984	
AN-26 B	Transport		CURL	1970	
AN-30 M	Reconnaissance		CLANK	1968	
IL-78 M	AAR		MIDAS	1987	
IL-76 MD	Transport		CANDID	1974	
YAK-40	VIP transport	EW	CODLING	1968	

Squadron Description

Bomber	A bomber squadron conduct Air Interdiction missions. The aircraft in a bomber squadron have a limited A-A capability for self-protection. A squadron consist of <u>12x aircrafts</u> .
Fighter	The fighter squadrons conduct normal fighter operations such as DCA (CAP) and OCA (Sweep, Escort). A squadron consist of <u>12x aircraft</u> .
Heavy bomber	Heavy bomber squadron conducts long-range strategic attacks, and heavy bombing duties. A squadron consist of <u>6x Aircraft</u> .
Assault	Assault squadrons conduct Close Air Support and Armed Recon missions. A squadron consist of <u>12x aircraft</u> .
Reconnaissance	A reconnaissance squadron is used to gather intelligence about the enemy either visually or electronically. A squadron consist of <u>6x aircraft</u> .
Interceptor	Squadron that is specialized in DCA with the purpose of intercepting incoming enemy aircraft. Squadron consist of <u>12x aircraft</u> .
Tanker	Squadron conducts AAR for other aircrafts. Squadron consist of <u>4x Aircraft</u> .
Transport	A transport squadron is used for transporting supplies, personnel or material. This can either be a logistic operation or a airborne operation. Squadron consist of <u>6x aircraft</u> .
Airborne Early Warning	Squadron conducts Airborne Early Warning, and can be tied into the regions IADS. A Squadron consist of <u>4x Aircraft</u> .
Anti-ship	A Anti-ship squadron conducts maritime patrolling, or conducts Anti Surface Warfare (ASUW) where it attacks ships at sea. Carrier groups is their primary target. A squadron consist of <u>6x aircraft</u> .
SEAD/EW	SEAD/EW squadrons are designed to attack Air Defense of the enemy and will normally support other operations. A squadron consist of <u>x6 aircraft</u> .

Squadron Composition

Bomber	SU-24 / SU-30 / SU-34
Fighter	MiG-23/MiG-29 / SU-27 / SU-30 /SU-33
Heavy bomber	TU-160/ TU-22 /TU-95
Assault	MiG-27/ MiG-29/SU-17/ SU-25 / SU-34
Reconnaissance	SU-24 MR/ MiG-25 RBT/ AN-30
Interceptor	MiG-21 / MiG-25 / MiG-31
Tanker	IL-78
Transport	AN-26B/IL-76/YAK-40
Airborne Early Warning	A-50
Anti-ship	TU-22 /TU-142
SEAD/EW	YAK-40, SU-25, SU-24, SU-34, SU-30

Readiness

High readiness:

A squadron with high readiness is combat ready in support of an offensive, or pre-planned need for high readiness. The squadron have conducted preventive maintenance to support combat operations.

A squadron with high readiness have 75% of the aircraft in the squadron ready for missions, with the remaining aircraft undergoing maintenance.

Example:

12x AC: 9x aircraft ready (8-10)

6x AC: 4-5x aircraft ready (3-5)

4x AC: 3x aircraft ready (2-4)

Normal readiness:

A squadron with normal readiness is combat ready, and are in combat, flying combat operations while doing maintenance of the aircrafts

A squadron with normal readiness have 50% of the aircraft in the squadron ready for missions, with the remaining aircraft undergoing maintenance.

This is the default state of the squadrons.

Example:

12x AC: 6x aircraft ready (5-8)

6x AC: 3x aircraft ready (2-4)

4 x AC: 2x aircraft ready (1-3)

Low readiness:

A squadron with low readiness is limited combat ready, after a period of combat operations (or other reasons), the squadron need to do maintainance and prepare the aircrafts and pilots for operations. In this phase the squadron only will have a limited amount of aircraft (with crew) available for combat, flying combat operations while doing maintenance of the aircrafts.

A squadron with low readiness have 25% of the aircraft in the squadron ready for missions, with the remaining aircraft undergoing maintenance.

Example:

12x AC: 3x aircraft ready (2-6)

6 x AC: 1-2x aircraft ready (0-3)

4 x AC: 1x aircraft ready (0-2)

Hierarchy

Air Force

Highest echelon in a sector or country. Led by a 3-star general. Will normally have 3 Divisions.

Air Division

A Air Division may have several regiments of various types. Led by a 2-star general.

Air Regiment

A regiment have the same mission set. Each regiment have 2-4 squadrons with different types of aircraft. Led by a 1-star general.

Air Squadron

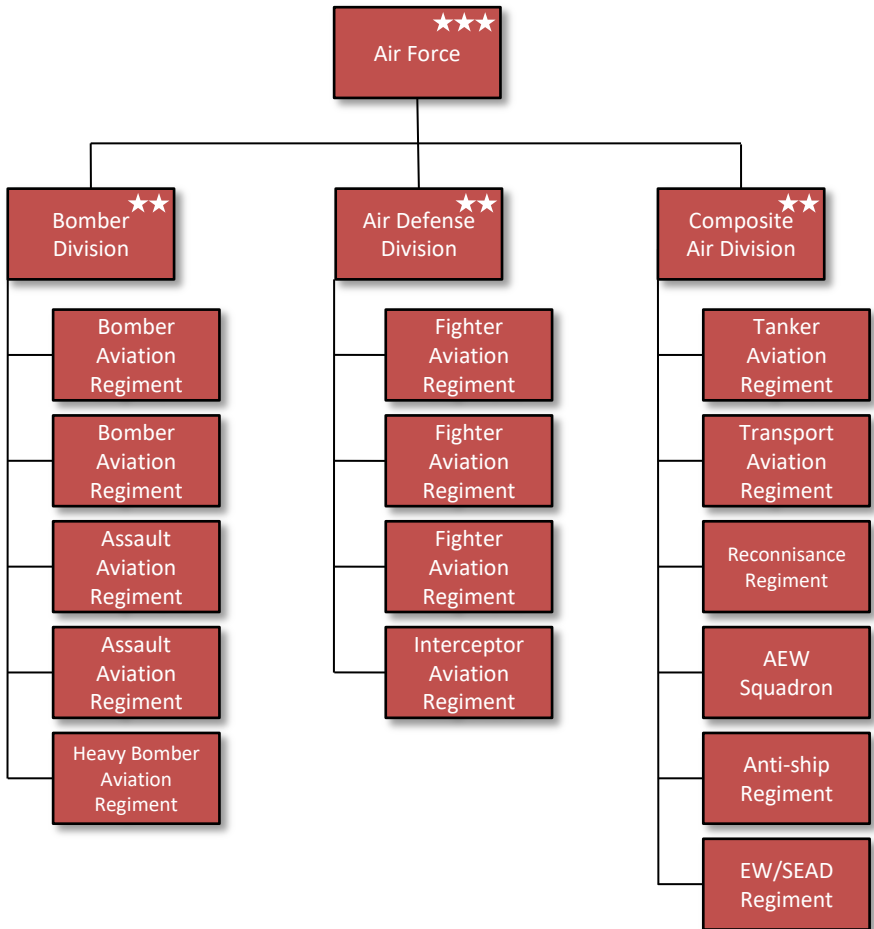

Smallest organization in the Air Forces. Consist of same type of aircraft. Equipped with 4-12 aircraft depending on type of squadron.

The enemy force may have several numbered Air Force's in its structure (it will vary based on the campaign/event). However the numbered Air Forces will have a similar structure

Example: Russia may have the 2nd Air Force and 4th Air Force in 2 different sectors.

Air Force Organization

NOTE: The size of the various regiments will vary, each regiment will consist of 2-4 squadrons.

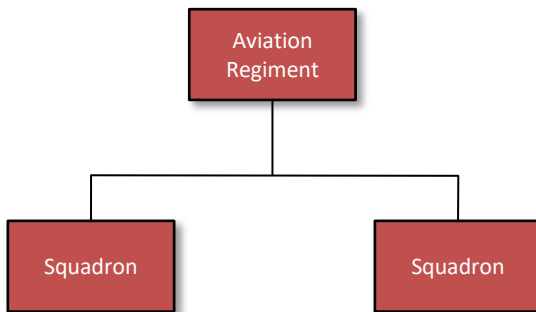

AEW: Airborne Early Warning

EW: Electronic Warfare

SEAD: Suppression of Enemy Air Defense

Aviation Regiment

All regiments have the same structure. However, the amount of squadrons in a regiment may vary, but will be given in intelligence report for specific operations/areas
